

## Comments/Information

	<p>Vice President Munoz commented that DACA and non-citizen students do not have the same options/opportunities when it comes to applying for scholarships and loans. Lowering the credit requirement will benefit this targeted population. Especially since DACA students cannot apply for FASFA. Secretary Aguilar added on by stating that lowering the credit requirement will allow students who work part- or full-time jobs to be able to enroll to the college, especially since it can be hard to be a full-time student and full-time employee. It is a case-by-case situation.</p> <p>Senator Wilson agreed with Secretary Aguilar on lowering the credit requirement since this can benefit a good majority of students who are not your traditional college student, or who are between the ages of 18 to 21. It's a huge benefit for parents who are looking into going back to school.</p>
